Reason for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 1-30 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a system or method for determining lateral position of a tape head with respect to longitudinal servo bands of a magnetic tape when servo head of the tape head is not on servo band and is unable to provide servo position information, comprising of a control system selectively sensing data read transducers of the tape head, and upon detecting a servo signal of a servo band from a sensed data read transducer, determines the lateral position of the tape head with respect to the detected servo band. It is noted that, the closest prior art, Bui et al (USPN 6,580,581) teaches a system for recovering of lateral position of a servo system with respect to longitudinal servo bands of a magnetic tape. However, Bui et al fail to disclose a control system selectively sensing data read transducers of the tape head, and upon detecting a servo signal of a servo band from a sensed data read transducer, determines the lateral position of the tape head with respect to the detected servo band.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
